PERENNIALS for SHADE

AQUILEGIA CAERULEA 'KIRIGAMI MIX' (COLUMBINE) 2.5 QT. POT \$15.50 EACH

Kirigami Mix columbine is a formulated blend of huge, upward facing 2-3 inch, blue, pink, red, rose, white, and yellow flowers. Grows 14-24 inches. Established plants flower over an especially long season, from early spring to early summer. This plant dazzle in mass plantings, mixed borders, cottage gardens, cutting gardens, and containers. Winter hardy perennials to zone 5. Moist, well drained soil. For cut flowers, harvest blooms as they begin to open. Typical vase life is 5 to 7 days. Pinch or cut off spent flowers to extend bloom season. Flowers attract hummingbirds and butterflies. Deer and rabbit resistant.

AQUILEGIA CAERULEA 'ORIGAMI YELLOW' (COLUMBINE) 2.5 QT. POT \$15.50 EACH

This is a hybrid strain of Columbine. Plants have a compact habit, the large, up facing blooms usually bicolored in a variety of shades. This particular selection is pale yellow. Flowers are attractive to hummingbirds. Removing spent flowers will increase the blooming time. Great in containers. Since Columbines are relatively short lived, allow some of the plants to go to seed and self sow. Leaf miners or sawfly may disfigure the leaves around flowering time. Simply trim off the ugly foliage and the plants will grow fresh leaves. Zone 3 to 9, part sun or partial shade, soil moisture average or moist, height: 14-18 inches, spread: 12-18 inches, blooms early summer, late spring, deer & rabbit resistant.

ASTILBE 'PEACH BLOSSOM' 2.5 QT. POT \$15.50 EACH

Airy plumes of light peach with a hint of pink move with the slightest breeze. Peach Blossom is the one most tolerant of dry conditions. The lacy and fern-like foliage is vivid green. Works well in a border or in mass planting. Astilbe are mainstays of shade and woodland gardens. Zones 4-8, height 20 inches, spacing 18 inches, half sun /half shade to full shade, blooms early summer to late summer.

ASTILBE 'VISION IN WHITE' 2.5 QT. POT \$15.50 EACH

'Vision in White' is a robust growing selection which produces loads of large, creamy white, triangular plumes in midsummer. A later blooming species useful for extending the bloom season into late summer. Foliage is deeply incised, coarsely textured, and often bronze-green in color. Though garden performance is far superior in moist soils, members of this species are moderately drought tolerant. Zones 4-9, 28 inches tall and wide, partial to full shade, deer and rabbit resistant, attracts butterflies.

ATHYRIUM VAR. PICTUM (JAPANESE PAINTED FERN) 2.5 QT. POT \$17.00 EACH

Also called Japanese Painted Fern, this is one of the most colorful ferns for the garden, the The plant has silvery-grey fronds which are dusty purple towards the center. They are set off by the purplish-red veins and stems. This fern has a low and mounding habit, slowly spreading by rhizomes to form dense colonies. The fronds are positioned in a way that creates a horizontal layering effect much like you see in Dogwood trees. Zones 3-8, height: 12-18 inches, spread: 24 inches, part shade, full shade, rabbit resistant.

BRUNNERA 'ALEXANDRIA' (SIBERIAN BUGLOSS) 2.5 QT. POT \$19.00 EACH

Alexandria features brilliant mirror-silver leaves with the classic 'Alexander's Great' size and vigor. Tiny clouds of sky-blue flowers in the spring float above the foliage as it emerges. Truly a refreshing garden addition with early flowers for the pollinators. Zones 4-9, blooms April-May, deer resistant.

BRUNNERA 'SEA HEART' (SIBERIAN BUGLOSS) 2.5 QT. POT \$17.00 EACH

Exquisite green veining throughout the frosted silver leaves resemble the intricate wing of a dragonfly. Sprays of pink buds open to dainty blue flowers for a lovely two-tone effect above the vigorous clump of heart-shaped leaves. An improved variety, the hearty foliage stands up well to heat and humidity. Zones 4-8, height: 6-10 inches, spacing 18 inches, blooms early to late spring.

HELLEBORUS 'IVORY PRINCE' (LENTEN ROSE) 2.5 QT. POT \$19.00 EACH

Outward facing ivory flowers are painted with rose and chartreuse. Early buds are burgundy pink over blue gray foliage. Charming and welcome first flowering perennials of spring. Float flowers in clear bowls for an elegant centerpiece. Zones 4-9, mostly sunny to full shade, height 16 inches, plant 20 inches apart, blooms early to late spring, moist, well-drained soil, low maintenance and very permanent, highly deer, disease and pest resistant and heat, humidity and drought tolerant, good for cut flowers.

HELLEBORUS STRAIN' HONEYMOON MIX 2.5 QT. POT \$19.00 EACH

Sprinkle your garden with the broad diversity of exquisite colors in this single-flowering Helleborus mix. The plants in this series were selected for their strong garden performance and showy flowers, which range from deepest mahogany to cream with diversely patterned burgundy markings. It has a long flowering season, blooming for five months out of a year. Its foliage is a rich, medium green with leathery, serrated leaves. Zone 4 - 9, height 18 to 24 inches and a width of 2 to 3 feet, partial to full shade with moist, well-drained soil, low maintenance and very permanent, highly deer, disease and pest resistant and heat, humidity and drought tolerant, good for cut flowers.

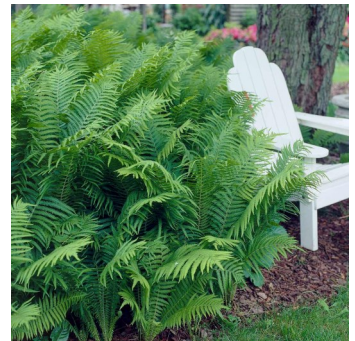

HEUCHERA 'SPELLBOUND' (ALUMROOT) 2.5 QT. POT \$17.00 EACH

Marvelous ruffled foliage of dazzling silvers with tints of rose purple will leave you spellbound. The purple tones are more prominent in the spring and fall. Silver tones are more prevalent in shade. It forms a big plant with a dense, multi-crown habit. Great in containers or in the landscape. A new popularity poll winner! Zones 4-9, Height: 9 inches-16" with flowers, 16 inches wide, Part Shade, Full Sun, bloom time: May, June, July, August, September. Attracts hummingbirds.

MATTEUCCIA STRUTHIOPTERIS (OSTRICH FERN) 2.5 QT. POT \$17.00 EACH

Ostrich Fern is a stately, vase-shaped fern that grows between 3-5 feet tall and has a 2-3 foot spread. It makes for a dramatic addition to a shade garden during the summer months before falling dormant by early fall. This plant is tolerant of a wider variety of soil types, unlike most other ferns, however it is still particular about preferring shade. deer resistant.

PULMONARIA 'RASPBERRY FROST' (LUNGWORT) 2.5 QT. POT \$17.00 EACH

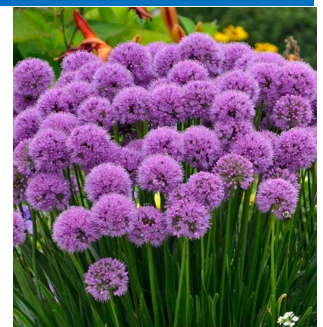

Coral-red flowers in spring contrast beautifully against a backdrop of silver-blotched foliage edged in creamy white. After flowers fade, leaves continue to emerge from the crown of the plant to provide a fresh, clean look. A great groundcover under small trees and shrubs. Top-notch for the front of a border to brighten a shady niche. Pulmonaria Raspberry Frost will tolerate morning sun but need afternoon shade to avoid leaf scorching. Lungworts are clump-forming perennials spreading over time by rhizomes. It is prized for its wonderfully patterned foliage that remains attractive all season. Zones 4-9, full shade to mostly sunny, height: 10 inches, spacing 18 inches, blooms early to late spring.

PERENNIALS for SUN

ALLIUM 'MILLENIUM' (ORNAMENTAL ONION) 2.5 QT. POT \$15.50 EACH

Allium Millenium is one of the very best ornamental onions. Unlike spring-blooming Allium bulbs, this hybrid Allium blooms in mid-summer with large globes of rose-pink flowers. Mature plants have dozens of globes covering this perennial plant. Attractive, shiny deep-green grassy foliage is very ornamental. Zone 5 to 9, full sun, low water, height 15 inches tall, spread 18-22 inches wide, blooms in summer. Advantages: Attract butterflies, easy to grow, deer resistant, fragrant flower/foliage, good for cut flowers, dried flowers and containers.

ASCLEPIAS INCARNATA 'CINDERELLA' (SWAMP MILKWEED) 2.5 QT. POT \$15.50 EACH

A genuine star whose unusually dense clusters of pale pink flowers open from dark pink buds. The vanilla-scented flowers last well in water and attract butterflies and hummingbirds. Plants bloom best in full sun but can tolerate a bit of shade. They grow naturally in wet places along streams and ponds. Swamp Milkweed will grow in heavy, wet soil or in good garden soil and are perfect for rain gardens. Of the 200 species in the genus Asclepias, the best known are North American wildflowers. They have small, curiously shaped blooms that appear in dense clusters. These plants provide nourishment for

Monarch butterflies through all their life stages and are essential for their survival. Plants are deer resistant and heat tolerant. Zone 3-9, blooms June-August, height 3-5 foot, spacing 24-30 inches.

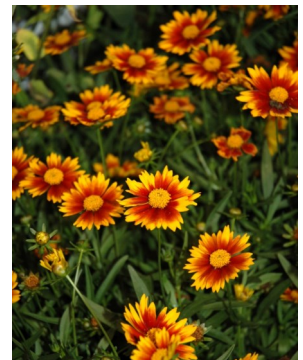

ASCLEPIAS TUBEROSA (BUTTERFLY WEED) 2.5 QT. POT \$15.50 EACH

A punch of intense tangerine orange invites droves of butterflies. A butterfly host plant for Monarchs in particular; butterflies also cherish its lavish flower clusters filled with scrumptious nectar. Green seed pods open to glistening silky parachutes that float with the breeze to a new location. Butterfly Weed emerges late in the spring and blooms early to late summer. Requires little care once established. Tough as nails, this beauty is Native to eastern North America. Beneficial for pollinators, butterflies, hummingbirds, deer resistant, good for cut flowers, heat tolerant, Zones 3-9, height: 18-24 inches tall, plant 24 inches apart, full sun.

COREOPSIS 'LI'L BANG DAYBREAK' (TICKSEED) 2.5 QT. POT \$15.50 EACH

A very long-blooming perennial, part of the hybrid Li'l Bang™ series, best suited for sunny areas. It forms a narrow, upright, compact mound of finely-cut, dark green leaves. The exceptionally large, single, red daisy flowers feature a vibrant yellow-orange edge and appear summer to autumn. Well-suited for the front to middle of a sunny border, also good in containers. Excellent disease resistance. Shear mid-season to keep it looking its best all season. Zones 5 to 9, full sun, height 6-10 inches, spread 16-18 inches, attracts butterflies, deer and rabbit resistant, good for cut flowers.

DELPHINIUM 'GUARDIAN LAVENDER' (LARKSPUR) 2.5 QT. POT \$17.00 EACH

This is a classic perennial part of the Guardian series which were bred for early blooming, vigor and uniformity. This tall light blue lavender spike with uniform blossoms are stunning in a sunny garden. These plants will bloom in early to mid-summer and continue if the growing season is long enough and they have been trimmed back in time to grow again. Plant in the back of the garden and stake if not protected from the wind for best results. 30-40 inches tall, Delphinium make an excellent cutting flower and are deer resistant. Bee friendly, attracts butterflies and hummingbirds, deer resistant, Zones 4-8.

DELPHINIUM 'NEW MILLENNIUM COBALT DREAMS' 2.5 QT. POT \$15.50 EACH

Dark blue flowers with white centers on sturdy stems of densely flowered, multiple spikes. New Millennium hybrids are hardier and more tolerant of heat and humidity than older varieties. Colorful flower spikes rise above lobed leaves. Taller varieties do best with staking. Prune after the spring bloom for rebloom in September. Zones 3-7, full sun, part sun, part shade, height 48 to 60 inches, attracts butterflies, bees, birds, hummingbirds, good for cut flowers.

DELPHINIUM 'BLACK KNIGHT' (LARKSPUR) 1 QT. POT \$10 EACH

Statuesque flowers in rich indigo blue with dark eyes reach skyward on long spires. Elegant and exquisite flower spikes add a majestic touch to your garden. Zones 3-8, full to mostly sun, height 4 to 6 foot, plant 18 to 24 inches apart, blooms early to late summer, attracts butterflies, bees, birds, hummingbirds, good for cut flowers. Taller varieties do best with staking.

ECHINACEA 'CHEYENNE SPIRIT' (CONEFLOWER) 2.5 QT. POT \$15.50 EACH

A delightful mix of brilliant hues of orange, bright red or yellow surround a large brown cone. For strong color impact in your border. *NOTE: Cannot guarantee bloom color (s). Zones 4-9, full sun to mostly sunny, height 2 foot, plant 2 foot apart, blooms mid summer to early fall, attracts pollinators, butterflies, good for cut flower, deer resistant, drought tolerant.

ECHINACEA 'DOUBLE CODED RASPBERRY BERET' (CONEFLOWER) 2.5 QT. POT \$19.00 EACH

Fully double intense raspberry pink flowers, 4 inch wide, with ray petals to match. Prolific floral production seated atop dense rosettes of foliage. Broad, horizontal ray petals maximize flower size. Zones 4-8, height 18-20 inches, spacing 22 -24 inches, blooms mid-late summer, fragrant flower, deer resistant, attracts hummingbirds, butterflies and birds. When the season is over, leave the dried seed heads for the winter birds.

HIBISCUS SYRIACUS 'STARRY STARRY NIGHT' TRADE GAL. POT \$19.00 EACH

Incredibly dark, near-black, broad, maple-like leaves form an upright clump in the landscape. Interesting 7-8 inch flowers are pale pink with darker pink speckling and veining. The flowers are held on bright green carpels, which contrast nicely with the dark foliage. Flowers are produced from the top to the bottom of the plant, rather than only at the top like some older cultivars. Zones 4-9, height 3.5-4 foot, blooms mid-summer to early fall, attracts butterflies, bee-friendly, deer resistant.

LOBELIA CARDINALIS (CARDINAL FLOWER) 2.5 QT. POT \$15.50 EACH

Commonly called cardinal flower this is a clump-forming perennial which features erect, terminal spikes (racemes) of large, cardinal red flowers on unbranched, alternate-leaved stalks rising typically to a height of 2-4 feet. Zone 3 to 9, full sun to part shade, prefers wetter soil, spreads 1 to 2 feet, blooms July to September, attracts hummingbirds and butterflies, rabbit and deer tolerant.

LONICERA 'DROPMORE SCARLET' (HONEYSUCKLE VINE) 2.5 QT. POT \$19.00 EACH

Masses of showy, tubular flowers burst with color, creating a mini firework display in your garden! Vibrant orange-red flowers bloom in the summer, attracting hummingbirds and butterflies with sweet nectar. As the season changes, flowers give way to small red berries, which are adored by birds. This rugged, semi-evergreen climber couldn't be easier to grow! It quickly grows to cover fences, trellises, railing, mailboxes, and more with blue-green, circular foliage. The best part? This honeysuckle is non-invasive, so you can grow it guilt-free! Zones 4-9, height x width: 15-20 feet x 4-6 feet, blooms early summer-fall.

LUPINUS 'GALLERY YELLOW' (LUPINE) 1 QT. POT \$10 EACH

Sunshine-yellow spikes, so cheerful and beautiful; Lupines also have the added benefit of being quite deer and rabbit resistant. The tightly packed, sweet pea-shaped blossoms in a breathtaking array of colors invite pollinators to their nectar-rich spires. Zone 4 to 8. Growing 14-16 inches tall, this dwarf variety brings both butterflies and hummingbirds to the landscape. A strong re-seeder. Blooms late spring - mid-summer, full to partial sun.

MONARDA DIDYMA 'JACOB CLINE' (BEEBALM) 2.5 QT. POT \$15.50 EACH

These easy to grow, long blooming plants explode with very large frilly red flowers just as summer begins. Monarda Jacob Cline is considered to be the very best red variety on the market. Hummingbirds love them! A carefree strong grower. These tall plants add vertical accent to the back-of-the border. Their whimsical jester hat shaped blossoms add playful shapes and textures. Zone 4-9, height: 4-5 foot, plant 14-18 inches apart, blooms early summer to early fall, full sun to half sun/half shade. Good for pollinators, attracts butterflies and hummingbirds, deer and rabbit resistant, wet tolerant, good for cut flowers. Easy to grow. Divide spring or fall every 3-4 years. Thinning stems to increase air circulation will help prevent powdery mildew, as will keeping plants watered during dry spells. Foliage can be cut back after flowering to encourage fresh new leaves and possible late fall rebloom.

These easy to grow, long blooming plants explode with very large frilly red flowers just as summer begins. Monarda Jacob Cline is considered to be the very best red variety on the market. Foliage can be cut back after flowering to encourage fresh new leaves and possible late fall rebloom.

MONARDA DIDYMA 'PANORAMA MIX'-RED SHADES (BEEBALM) 1 QT. POT \$10.00 EACH

Both the flowers and the foliage are fragrant. Panorama mix with its ultra-colorful, frizzy 1 to 2 -inch blooms and its great resistance to powdery mildew. Both the flowers and the foliage boast a spicy, summery scent, and each plant bears up to 20 long stems. Nothing brings in the butterflies, hummingbirds, and bees like Panorama Red Shades Monarda, and these bright flowers bloom profusely in midsummer on vigorous, bushy 3-foot plants. The heavenly fragrance will keep you out in the garden to enjoy all the wildlife, too. Zones 4-9, height 3 foot.

PAEONIA 'BARTZELLA' (ITOH PEONY) 1 GALLON POT \$35.00 EACH

Splash your garden with lots of sweetly fragrant, yellow blooms. Prolific peony produces up to 80 gorgeous double flowers from late spring to early summer. A cross between herbaceous and tree peonies, Itoh peonies have a dense, rounded form, a great abundance of 7-9 inch flowers and a bloom season that lasts up to six weeks. Zones 3-8, height 24-36 inches tall with a similar spread. Deer and rabbit resistant, attracts butterflies, cut flowers. Plant is sturdy and does not require staking.

PHLOX PANICULATA 'DAVID' (GARDEN PHLOX) 2.5 QT. POT \$15.50 EACH

Sparkling white giant flowering clusters. Phlox David is very fragrant with light green, mildew resistant foliage. As a staple for the perennial border it mixes well and continues to provide long summer color. When most plants are on their summer siesta, Garden Phlox provide a much needed shot of color. Large blossoms in a range of colors, Garden Phlox are known as the backbone of the perennial border. Zones 4-8, height 2-4 foot, blooms late summer to early fall, cut flowers, pollinator and hummingbird friendly. Deer and rabbits generally avoid phlox.

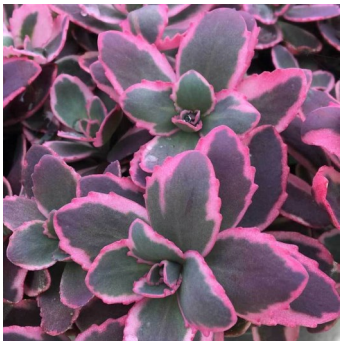

ROSE KNOCKOUT DOUBLE PINK 2 GALLON POT \$19.00 EACH

A maintenance-free rose that continually produces self-cleaning bright pink double flowers with a slight spicy fragrance. Unsurpassed resistance to black spot and downy mildew leaf diseases. The rounded, bushy, well-behaved form is excellent for use as a low hedge or accent. Zones 5-9, blooms spring through fall, fast growing; height and width 3 to 4 foot, disease resistant, attracts butterflies and pollinators.

SEDUM 'LIZARD' 1 QT. POT \$10.00 EACH

An exquisite blend of nature's vibrant palette, with foliage that dances between rosy purple and fresh green. A creeping succulent that beautifully weaves itself across gardens, this sedum adorns spaces with delightful summer white blooms that complement its colorful foliage. Whether you're planning to elevate a small corner of your garden or introduce some texture and color to your patio pots, this sedum promises to be a mesmerizing addition. Makes a great addition for a rock garden or borders or in containers for colder climates. Blooms fall and summer, Zones 6-11, Height 3-5 inches.

SEDUM 'SUNSPARKLER DREAM DAZZLER' 2.5 QT. POT \$17.00 EACH

Stunning purple and pink edged sedum. Easy to care for drought resistant groundcover. Enjoy 7+ weeks of non-fading flowers. Zones 4-9, sun, 8 inches tall x 18 inches wide at maturity. A hardy succulent plant with new growth that emerges pink, white, and purple, maturing to dark purple with hot pink edges in summer sun. Masses of magenta flowers attract butterflies. Great for borders or containers.

VERONICA 'PINK CANDLES' 2.5 QT. POT \$15.50 EACH

These plants have richly pink candlestick blooms that put on a vivid and abundant display that starts in early summer. They are an excellent choice for borders, rock gardens, mass plantings, and beds. These little beauties grow to around 1 foot tall x 1 foot wide, and provide an excellent color and texture combination. Zones 4-8, 8 inches high and 10 inches wide, long bloom time, disease resistant, containers, cut flowers, deer and rabbit resistant, attracts pollinators.

VEGETABLES

SUN KING BROCCOLI 4 PACK \$5.00

Attractive blue-green heads sit ready to harvest through the heat and sweeten more when kissed by fall frosts. Well leafed plants yield these 6-8" diameter heads and 5-10 1" side shoots as well. Avoid planting in garden area where cabbage family was grown the year before. Withstands light frost.

BOK CHOY 4 PACK \$5.00

Bok Choy, also called white Chinese cabbage, belongs to the leafy vegetable pak choi family of Chinese brassicas. Bok Choy has white or green, thick, crunchy stems with light to dark green wide leaves. Size can vary from 4-12 inches tall! All parts, stems and leaves, are eaten.

**MIXED CAULIFLOWERS— 4 PACK (One of each) \$5.00
SNOWBALL, FLAME, DEPURPLE, AND ROMANESCO.**

Cauliflower is a cool season vegetable that prefers a sunny location and fertile, well-drained soil. Incorporate plenty of organic matter and a complete fertilizer into the area before planting. Only the white needs to be blanched (protected from sunlight).

CAULIFLOWER SNOWBALL (ALL WHITE)— 4 PACK \$5.00

BUSH PICKLE CUCUMBER 4" POT \$5.00

A deep green 6-8 inch slicing variety on compact, bush-type plants. 55 days — Cucumber plants are compact, dwarf, bushy and very productive. The fruits are deep-green in color and harvested at six to eight inches in length for slicing, are crisp, tender, and flavorful. They are a good choice for making pickles. They are a great choice for small garden spaces. 55 days. This plant resists downy and powdery mildew. Set 3 or 4 plants on each hill, mulch them well, and keep them watered and fed throughout the growing season. Companion plants: radish, corn, peas, beans, nasturtium. Plants produce short vines that spread 24 to 36 inches from the base of the plant, making them ideal for growing in areas where space is limited. Likes a well-drained location. Height 18-24 inches, width 24-36 inches, spacing 24-36 inches, full sun to part sun.

MARKETMORE 76 SLICING CUCUMBER 2.5" POT \$4.00 OR 2 FOR \$7.00 ★

Marketmore 76 is a very popular variety in the home garden. It is 8 to 9 inches long at maturity, dark green and is resistant to many cucumber diseases. It is an excellent slicer in salads and for other fresh uses. Approx. 66 days to maturity.

EGGPLANT CLASSIC 4" POT \$5.00

Here is the Eggplant of your parmigiana dreams! With glossy, 8-9 inch long, teardrop-shaped fruit, this versatile heavy fruiter will give you the taste and tenderness that will keep you coming back for more. For bigger fruits, restrict to five or six per plant, pinching off the extra flowers that develop. Eggplant grows best in a well-drained sandy loam or loam soil that is fairly high in organic matter.

ARUGULA 6 PACK \$5.00

Arugula is grown similar to lettuce and is a good source of vitamins A and C, which are important for eye health and your immune system. Arugula also contains antioxidants and phytonutrients which keep you healthy.

ALLSTAR GOURMET LETTUCE MIX 6 PACK \$5.00

A specially designed blend based on two years of trial research to make your salad mix stand out from the crowd. Selected varieties yield darker reds and greens even under low-light conditions. Ruffled edges and unique leaf shapes provide interesting texture, good shelf life, and fancy appearance. Includes green oakleaf, red oakleaf, green romaine, red romaine, lollo rossa, and red leaf lettuces.

LETTUCE, BUTTERCRUNCH 6 PACK \$5.00

This extremely popular heat-tolerant, Bibb-type lettuce has a luscious, buttery texture. The soft heads are creamy yellow inside and have some heat resistance. Best in cooler regions. Plant early in spring into the fall. Protect from heat with shade cloth. Likes fertile soil, ample water. Best when picked minutes before your meal. Space lettuce plants 8 inches apart. Its rich green leaves, sometimes tinged with red, form a beautiful rosette in the garden that holds well under stress and has good bolt resistance. A good source of vitamin A and phytonutrients. Grows best in full sun to part shade. Head size 6 to 8 inches (semi-heading),

Matures 21 days for leaves, 55 for head.

ROMAINE (PARIS ISLAND COS) (HEIRLOOM) 6 PACK \$5.00

This variety boasts all the merits of a commercially bred variety, but the crisp and sweetly scrumptious leaves say heirloom. Super uniform, upright leaves, observed disease tolerance, and moderate bolt resistance. The tender crisp leaves with delicate white hearts and the perfectly folded centers for scooping dips or holding dressings have won the hearts of gardeners for generations.

MIXED KALE- one of each Lacinato, Rainbow Lacinato, Blue Curl Scotch, and Red Bro F1. 4 PACK \$5.00

Try a variety of kales and see which one you like best! Easy-to-grow kale is cold hardy and a top performer, too. Often called a super food, kale is loaded with vitamins and antioxidants and is a great way to add nutrition to salads, stir-fry, soups and casseroles.

GIANT MARCONI PEPPER 4" POT \$5.00

Recognized for its adaptability, earliness, smoky-sweet flavor, and yield, this pepper is a sure winner in the garden. It is one of the biggest Italian- type sweet peppers, with a 8 inch long profile and a slightly lobed end. Peppers ripen from green to red and are sweetest when red. They are great in all kinds of cooked dishes. Matures 62 days after planting, plant 18 to 24 inches apart, height 24-48 inches.

PEPPER SWEET RAINBOW MIX GOURMET 6 PACK \$5.00

Produces good yields of a rainbow of vibrant sweet bell peppers. The plant has green stems, green leaves, and white flowers. Peppers turn from green to red, yellow, orange, purple, and brown when mature. Excellent for salads, stuffing, and cooking. 70 days, height 30 inches tall, full sun.

TOMATO SLICING BETTER BOY VF 4" POT \$5.00

This slicing tomato has it all—excellent taste, beautifully rounded large fruit and disease resistance. Plus, it produces loads of 1-lb. plump, juicy, meaty, red fruits. An indeterminate, it produces fruits up until frost. Staking the vines is recommended. Height: 6 - 8 feet, spacing 18 - 24 inches between plants, 3 - 5 feet between rows, full sun, 75 days.

TOMATO, BUSH EARLY GIRL HYBRID II 4" POT \$5.00

The earlier, the better. These extra-large, extra-early tomatoes grow on a true bush. The 4 inch across tasty red fruits are much bigger than Early Girl and ripen just 2 days later. Early maturing bush type plant produces huge yields of 6 to 7 oz red tomatoes. They are firm, meaty, very flavorful, and larger than its sister Early Girl. Perfect for salsa, salads, and cooking. Perfect for container gardening, patios, or small gardens where space is very limited! Plant produces heavy yields averaging 100 tomatoes or more from each plant. An excellent choice for home gardens. The plants are compact, yet productive. Use for fresh salad, slicing, and canning. Resistant to multiple diseases. Height 24-36 inches, spacing: 18-24 inches, 55-68 days, full sun, determinate.

TOMATO SMALL FRUITED SUN GOLD CHERRY 4" POT \$5.00

Tomato-Small Fruited Sun Gold Cherry-65 days, sweet-tart flavor is simply amazing, golden-orange fruits in large clusters; great for snacking a week before full maturity, when it becomes very sweet and delicious, prone to cracking, indeterminate.

**LEEK (ONE POT OF EACH - TITAN & SUMMER LEEK) TWO 3 INCH POTS \$5.00
(contains minimum of 6 plants per pot)**

Have you tried growing leeks? Here is a chance to sample two varieties that mature at different times. Leeks are similar to onions in flavor, but are much milder, more delicate, and a little sweeter. Their flavor adds a lot of depth to recipes like soups and pasta, without being overbearing. Titan requires a long growing season of about 120 and when well mulched in late fall you can enjoy winter long harvests. Summer Leeks can be harvest late summer early fall and only tolerates light frosts. Spacing of two to four inches between plants works well for space, light and air circulation. Mound or hill soil or mulch up to the bottom leaves of the plants to produce a longer white shaft, or plant in a furrow and fill it in. Leeks have shallow root systems and need plentiful watering and kept weed free. These leeks are tolerant of mild frosts and cold, so you can delay harvest until after the first frosts.

AMBITION SHALLOTS & CUISSE DE PIGLET DU POITOU SHALLOTS. ONE OF EACH IN TWO 3 INCH POTS \$5.00

(contains minimum of 6 plants per pot)

Shallots are a member of the Allium family alongside garlic and onions, they hold a distinct place in culinary realms worldwide. These small onions, renowned for their mild yet complex flavor, have earned a coveted spot in the kitchen, imparting a delicate taste to various dishes. Shallots are high in Vitamins C, A and B-6, folate, potassium and manganese.

They contain a little bit of calcium, iron and protein, too.

PARSLEY-ITALIAN Flat Leaf 4 pack \$5.00

A classic garnishing herb on any plate because of its bright green flat leaves and deep flavor and sweetness. Flat-leaf has a more robust (and, some say, better) flavor. It can be used interchangeably with the curly variety, but flat-leaf is much easier to clean than the curly type.

ANNUALS

Fuchsia

4-inch pot
\$7.00

FUCHSIA BLUE EYES

FUCHSIA GT. NEW MILLENIUM

Consistent soil moisture is key in keeping fuchsias looking their best. Fuchsia plants should be situated where they're able to receive ample shade. Fuchsias love lots of filtered light but are particularly intolerant of heat. Slow-release fertilizers are ideal for use in outdoor beds, while hanging baskets and containers will prefer liquid feeds. Starting in the spring, balanced fertilizers can be applied once every two weeks throughout periods of active growth. Fuchsias will thrive and blossom more abundantly if they're pinched back as new growth appears.

Lantana

Do-it-all, plant heat-loving favorite produces steady stream of flower clusters from spring into fall. A mantle of clustered blooms soon covers vigorous mounding annual with fragrant foliage. Choice cultivar with trailing growth is a natural for group plantings: excelling as a ground-cover, beguiling in the border, or joyfully cascading. Lantana is a magnet for butterflies and hummingbirds. Hardy, low-upkeep plants are heat-tolerant, drought-resistant, and deer-resistant. Be sure to prune back after first flowering to encourage additional bud growth.

Salvia

Perennial Salvias (also known as “sage”) are heat-loving, deer-resistant plants that thrive from midsummer through fall. The bees, butterflies, and hummingbirds can’t resist them!

Salvia 'Black and Bloom'

Salvia 'Greggii'

SunPatiens

COMPACT PURPLE CANDY SUNPATIENS

SunPatiens can be grown in full sun. They may wilt if you allow them to dry out in the hot sun, but they will bounce back with water. SunPatiens bloom best with at least four hours of direct sunlight a day or in dappled sunlight. Expect fewer blooms in the shade.

LASCAR VIOLET DARK VERBENA

FIREHOUSE RED VERBENA

Verbena

All
4.5" pot
\$8.00

Vibrant, vigorous, and versatile, annual verbenas are some of my favorite flowers for adding va-va-voom to the summer garden. It blooms all season long, with miniature nosegays brimming with brightly colored flowers.

Verbena looks just as good weaving through garden beds as it does spilling from pots, window boxes, and hanging baskets. Verbena plants also tolerate midsummer drought and baking heat with little complaint, making it the ultimate easy-care flower.

HANGING BASKETS 12 inch \$40 EACH

COMBO #10 Peach of my Heart: includes yellow calibrachoa , orange sunPatiens, blue verberna

COMBO #6 Geisha Girl includes red petunia, red rose verbena and salmon-pink calibrachoa.

House Plants for Sale!

Various varieties of house plants will be on display the day of the sale and available for a donation to the Penn State Extension Master Gardener program. Browse our educational fact sheets, Penn State publications, and chat with the Master Gardeners!

PennState Extension

About the Master Gardener Program

Master Gardeners are volunteer garden educators who support the outreach mission of Penn State Extension by utilizing unbiased research-based information to educate the public and their communities on best practices in sustainable horticulture and environmental stewardship.

The Penn State Extension Master Gardeners of Susquehanna County have 55 active volunteers. Master Gardeners hail from all over the County, including Brackney, Forest City, Halstead, Montrose, New Milford, Springville, Susquehanna, and Union Dale, Volunteers are working professionals, stay-at-home parents, and retirees, both men and women, with a variety of gardening interests and experience levels. ***Interested in becoming a Master Gardener? Ask us how!*** We would love to welcome new Master Gardener trainees who can help extend our outreach.

Master Gardeners in Susquehanna County maintain several educational demonstration gardens, record observations for a statewide Home Garden Vegetable Trial study and Grow-Save-Repeat plant breeding program, teach the Mr. Yuk Poison Prevention curriculum to area first-grade students, staff an education outreach exhibit during the six-day Harford Fair, help with conservation projects in the community, partner with the Montrose Area Adult School to offer gardening classes, answer questions submitted to a County Garden Email Hotline, teach Seed to Supper beginner adult vegetable gardening courses, and present the annual Spring Garden Day. ***Proceeds from the Plant Sale Fundraiser help support these and other outreach activities.***

Save the Date for these Spring Events in Susquehanna County!

For questions about Master Gardener class offerings and for assistance registering, please contact the Master Gardeners at 570-666-9003 or susquehannamg@psu.edu.

- **Ag Day returns for the 34th year on Monday, April 1, from 10:00am to 3:00pm, held at Elk Lake High School.** Four Master Gardener classroom presentations are scheduled throughout the day: Creating Pollinator-Friendly Gardens, Tips for Successful Seed Starting, Growing Blueberries, and Garden Hotline LIVE! Common Gardening Questions and Answers. The event is free and open to the public. Lunch is included for those who pre-register.
- **Spring Garden Day is on Saturday, April 13, 9:00am to 3:00pm, held at the Montrose Bible Conference.** Master Gardeners and guest presenters offer six educational sessions designed to provide inspiration and instructional how-to for home gardeners. Advanced registration is recommended through the Montrose Area Adult School. The \$35 fee includes morning refreshments and a light lunch.
- Need pruning tips? Looking to add daylilies to your garden? Want to try your hand grafting apple trees? **Trained Master Gardener volunteers offer instruction and hands-on learning in classes presented in partnership with the Montrose Area Adult School.** Various dates, locations, and topics are scheduled throughout spring and early summer.
